A POINT OF VIEW FOR YOUR MANUFACTURING ACCOUNTS

Agentforce Manufacturing and Agentforce Revenue Management for specialty manufacturers, with the product rules already in hand.

Specialty manufacturers build to order. Their quotes come from spreadsheets, and one or two people know which combinations can be built. That is why they need Agentforce Revenue Management, and it is also where rollouts stall: nobody has time to write the product rules down. Nteli arrives with them.

What Nteli brings to each account

- **Ready-made product rules, pricing and guided flow** for 23 product lines, set up in the Product Configurator and pricing procedures. Lines include control panels, power packages, instrumentation, cable assemblies, HVAC, pumps, water treatment, transformers, lifts, surgical systems, and NRE services for medical device prototyping.
- **Channel Revenue Management for semiconductors:** distributor claims checked line by line against Sales Agreements, POS and stock, each with its reason.
- **Checks that stop what can't be built**, before any price, with the reason and the priced ways out.
- **A forecast from what really ships:** Sales Agreements, order history and weighted opportunities in the Account Forecast.
- **Agentforce actions** on every step. Agentforce proposes; the rep approves.
- **COGS-based pricing:** a cost-to-net waterfall with margin guidelines, and approvals only when a person is needed.

What it means for your deals

- **Licenses stay yours.** Nteli's fees are services only: Agentforce Manufacturing, Agentforce Revenue Management, Agentforce and Sales Cloud are all your sale.
- **A smaller first step for the customer.** A fixed $25K start sits easily beside the license deal.
- **Less risk in the rollout.** The product rules exist on day one, so the customer's engineers review them instead of writing them.
- **One story your sellers can repeat** for any manufacturing prospect. Only the product changes.
- **Direct and through the channel:** dealer quoting and distributor claim checking for those that sell both ways.

The story, in eight steps

1 Account — Agreements, actuals and forecast first.

2 RFQ — Lands on the Opportunity as written.

3 Configure — Only the questions that change the product.

4 Check — What can't be built stops, with ways out.

5 Price — Every option priced, margin visible.

6 Quote — A reason on every line. Auditable.

7 Order — Won quote becomes the order. To the ERP.

8 Dashboard — Forecast, stops and attainment in one place.

Three ways to start (Nteli services)

Quick Start Quoting right, fast	Migrate Their history from day one	Full Rollout End to end, with Agentforce
$25K fixed	**$40–60K**	**$75–100K**

All foundation steps, 1 branded quote template, up to 10 checks	Plus data migration and order history, 3 templates, up to 25 checks	Plus training, Agentforce, add-ons, 5 templates, up to 50 checks

Why Nteli

Premier — Salesforce Partner

4.93★ — 10 AppExchange reviews

58 — Salesforce certifications

2019 — Founded, Austin

Our team has built product configurators for Cisco, Dell and IBM. References on request, including Intricon, Quasar and Elite Pharmaceuticals.

How we'd like to work with your team

- Introduce us to the AEs who sell into specialty manufacturers in Commercial.
- Bring us into one live deal: we demo the story on that prospect's own product line. Demos are ready now, including semiconductors, water treatment and power packages.
- First three customers become design partners and named references for your team.
