nteli.io

For Salesforce manufacturing account executives · Salesforce Manufacturing Partner · Austin, TX

AGENTFORCE MANUFACTURING · AGENTFORCE REVENUE MANAGEMENT · AGENTFORCE

Close specialty manufacturing deals faster. Nteli brings the entire rule pack, pricing and dashboards pre-built.

Your specialty manufacturing prospects build to order. Their quotes come from spreadsheets, and one or two people know which combinations can be built. Deals stall when the customer realizes someone has to write all those product rules down. With Nteli, they already exist, for 23 product lines.

Why it helps your number

- **Demo their product line in the first meeting,** quoted on Salesforce, with no months of discovery.
- **Fewer deals stall in technical validation.** The product rules are done before the deal starts.
- **Every license stays your sale:** Agentforce Manufacturing, Agentforce Revenue Management, Agentforce and MuleSoft. Nteli's fees are services only.
- **An easy yes on services.** A fixed $25K start sits beside the license deal, and the customer is live in weeks, well before renewal.

Spot the right account

- Builds or configures to order, direct or through dealers and distributors.
- Quotes from spreadsheets; one or two people know the rules.
- Wrong combinations get found after the PO.

> **SAY THIS**
> "What if your quotes were checked before they went out, and the product rules were already built for your line?"

The return your customer sees

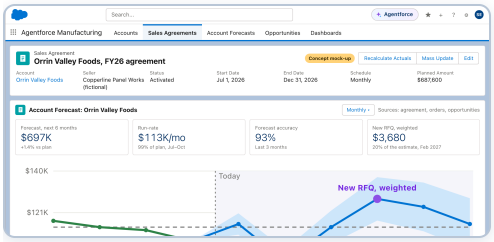

Worked example: specialty manufacturer, $40M revenue, 600 RFQs a year, 30% win rate, 35% gross margin.

~$720K	~6 mo	< 2 mo
benefit a year	sooner to value	payback, $100K rollout

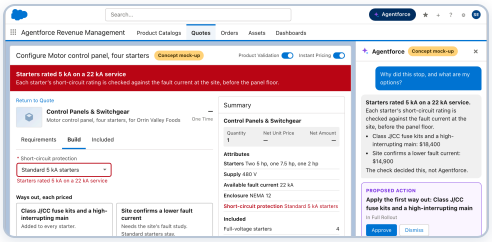

Pre-built	12 weeks
From scratch	~9 months
Wrong orders caught before the PO (2% of orders, 15% rework or credit each)	$120K / yr
Estimator time back (3 hours on each of 600 RFQs, at $75 an hour)	$135K / yr
One more point of win rate on $133M quoted, at 35% gross margin	$467K / yr
Opportunity cost of building from scratch (6 months of waiting)	~$360K

Assumptions, not results. "From scratch" is Nteli's estimate for building the same rules, pricing and dashboards new. We run this math on each prospect's own numbers.

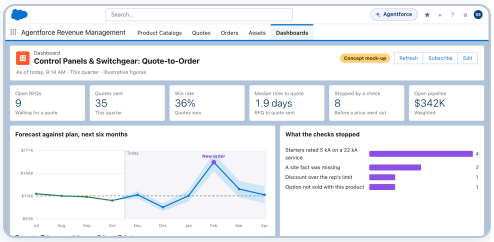

WHAT YOUR PROSPECT SEES ON SALESFORCE

Account Forecast
Actuals, run-rate and the new RFQ, six months ahead against plan.

Check, with Agentforce
What can't be built stops with its reason and priced ways out. Agentforce proposes; the rep approves.

Dashboard
Quotes, win rate, forecast against plan and what the checks stopped.

Also in every start: COGS-based pricing with a cost-to-net waterfall and margin guidelines, approvals only when a person is needed, and a reason on every quote line.

Three ways to start: Nteli services, every license stays your sale

	Quick Start Quoting right, fast	Migrate Their history from day one	Full Rollout End to end, with Agentforce
Nteli services	**$25K fixed**	**$40–60K**	**$75–100K**
Live in	1 week, self-serve, up to 5 users	About 5 weeks, up to 3 data sources	About 12 weeks, ERP through MuleSoft
Included	All foundation steps, pre-built rules and pricing, 1 branded quote template, up to 10 checks	Plus data migration and order history, 3 templates, up to 25 checks, Agentforce forecast briefing	Plus training, full Agentforce, add-ons, 5 templates, up to 50 checks
Best for	Catalog in spreadsheets, wants quotes now	Years of quotes and orders it can't lose	Runs on an ERP, sells direct and through the channel

23 product lines, pre-built and ready to demo
