AGENTFORCE MANUFACTURING · AGENTFORCE REVENUE MANAGEMENT · AGENTFORCE

Close specialty manufacturing deals faster. Nteli brings the entire rule pack, pricing and dashboards pre-built.

Your specialty manufacturing prospects build to order. Their quotes come from spreadsheets, and one or two people know which combinations can be built. Deals stall when the customer realizes someone has to write all those product rules down. With Nteli, they already exist, for 23 product lines.

Why it helps your number

- **Demo their product line in the first meeting.** No months of discovery before the prospect sees their own products quoted on Salesforce.
- **Fewer deals stall in technical validation.** The hard part, the product rules, is done before the deal starts.
- **Every license stays your sale:** Agentforce Manufacturing, Agentforce Revenue Management, Agentforce and MuleSoft. Nteli's fees are services only.
- **An easy yes on services.** A fixed $25K start sits comfortably beside the license deal.
- **Live in weeks, not quarters,** so the customer sees value well before renewal, with a clear path to expand.

Spot the right account

- Builds or configures products to order, direct or through dealers and distributors.
- Quotes from spreadsheets; one or two people know the rules.
- Wrong combinations get found after the PO.

SAY THIS
"What if your quotes were checked before they went out, and the product rules were already built for your line?"

The return your customer sees

Worked example: a specialty manufacturer with $40M revenue, 600 RFQs a year, a 30% win rate and 35% gross margin.

Value starts sooner, because the rule pack, pricing and dashboards exist on day one	~6 months
Wrong orders caught before the PO (2% of orders, 15% rework or credit each)	$120K / yr
Estimator time back (3 hours on each of 600 RFQs, at $75 an hour)	$135K / yr
One more point of win rate on $133M quoted, at 35% gross margin	$467K / yr
Total benefit	**~$720K / yr**
Opportunity cost of building from scratch (6 months of waiting)	~$360K
Payback on a $100K Full Rollout	< 2 months

Assumptions, not results. "From scratch" is Nteli's estimate for building the same rules, pricing and dashboards new. We run this math on each prospect's own numbers.

What the customer gets, in every start

Checks before the price. What can't be built stops, with the reason and priced ways out.

COGS-based pricing. Cost-to-net waterfall with margin guidelines and approvals.

Forecast from what ships. Sales Agreements, order history and weighted opportunities.

Agentforce on every step. Agentforce proposes; the rep approves. Dashboards pre-built.

Three ways to start (Nteli services; every license stays your sale)

	Quick Start Quoting right, fast	Migrate Their history from day one	Full Rollout End to end, with Agentforce
Nteli services	**$25K fixed**	**$40–60K**	**$75–100K**
Live in	1 week, self-serve, up to 5 users	About 5 weeks, up to 3 data sources	About 12 weeks, ERP through MuleSoft
Included	All foundation steps, pre-built rules and pricing, 1 branded quote template, up to 10 checks	Plus data migration and order history, 3 templates, up to 25 checks, Agentforce forecast briefing	Plus training, full Agentforce, add-ons, 5 templates, up to 50 checks
Best for	Catalog in spreadsheets, wants quotes now	Years of quotes and orders it can't lose	Runs on an ERP, sells direct and through the channel

Why Nteli

Manufacturing
Salesforce Partner

4.93★
10 AppExchange reviews

58
Salesforce certifications

2019
Founded in Austin

Our team has built product configurators for Cisco, Dell and IBM. References on request, including Intricon, Quasar and Elite Pharmaceuticals.

Bring us into a deal

- Send us the account and its product line. We demo the story on their products and run the return on their numbers.
- We handle the services scope; you keep the license deal moving.
- The first three customers become design partners and named references for your team.
